Orthostatic Hypotension

It's A Rap.....

Education through Fun

- When Curtin students came on placement to SCGH, G61 little did they know what we had in store for them.
- While providing them with education on orthostatic hypotension in the surgical setting, we decided to get them involved in our “Presentation/Rap”

Thanks

- Helen, Kate, Trish, Tegan, Curtin students and Chris.
- Feedback from the students is that they will NEVER forget Orthostatic hypotension and it's treatment.
